# Scandinavian Biogas Fuels International AB (publ) Corp. ID no. 556528-4733

# Interim report for the period 1 January – 30 June 2018

Commissioning of the plant in Norway began at the end of June, and the Swedish government is to expand state support for biogas.

## Second quarter in brief

- Commissioning of the liquid biogas plant in Skogn, Norway, began at the end of June.
- Net sales totalled SEK 65.9 million (65.7), a 0.3% increase on the same period last year.
- EBITDA was SEK -2.0 million (+12.2). The decrease on the second quarter 2017 was primarily due to increased
  operational and maintenance costs at Södertörn, higher substrate costs, legal expenses, penalty fees in South
  Korea, and increased personnel costs in Norway.
- The Group posted an operating loss of SEK -15.6 million (-0.7).
- The Group posted a loss after tax of SEK -21.3 million (-19.5).
- Project financing for the Södertörn plant was refinanced with bank loans at lower rates.
- The Group received a total of SEK 14 million in subordinated loans from its largest shareholders.

## First half-year in brief

- The Group signed a co-operation agreement with Mönsterås Biogas AB to jointly develop an investment project for potential biogas production in Mönsterås municipality. The goal of the project is to treat 100,000 tonnes of organic waste and produce around 110 GWh of liquid biogas (LBG) annually.
- A filling station at the Group's biogas plant in Södertörn entered service at the beginning of the year. The station will primarily sell pure biogas to trucks and refuse vehicles that use the SRV recycling facility in Södertörn.
- Net sales totalled SEK 129.5 million (131.2), a decrease of 1.3%, primarily due to reduced food waste deliveries in Ulsan, South Korea.
- EBITDA was SEK -0.6 million (+22.7). The decrease on the same period last year was primarily due to
  increased operational and maintenance costs at Södertörn, higher substrate costs, legal expenses, penalty fees in
  South Korea, and increased personnel costs in Norway.
- The Group posted an operating loss of SEK -28.1 million (-3.0).
- The Group posted a loss after tax of SEK -43.8 million (-23.8).

#### Significant events after the end of the period

- In early July, the Swedish government announced plans to expand state support for biogas.
- The Group is planning a rights issue for the second half of 2018.
- The Group has received an additional SEK 4 million in subordinated loans from one of its largest shareholders.
- The Group has launched a programme to improve profitability, primarily at Södertörn, and has started a reorganisation process.
- The Court in Ulsan has announced a for the Group unfavourable decision regarding the penalty fee dispute.

All financial information in this report pertains to the Group unless otherwise specified. Figures in brackets relate to the same period the previous year. Every care has been taken in the translation of this report. However, in the event of discrepancies, the original Swedish will supersede the English translation.

## **Operations**

Scandinavian Biogas sells biogas-based renewable energy and related services. The Group provides leading expertise in purification processes that upgrade biogas to fuel-quality, and in the use of residual products from the digestion process such as digestate. The Group invests in production facilities, either owning or leasing them, primarily in the Nordic region; in other markets, the Group's competences are marketed as a service.

Scandinavian Biogas Fuels International AB (publ) is registered and headquartered in Stockholm. On 30 June 2018, the Group had 44 (44) employees in Sweden, 20 (22) in South Korea, and 13 (9) in Norway.

#### Group

Scandinavian Biogas Fuels International AB (publ) is the parent company of the Scandinavian Biogas Group that comprises of several wholly- and co-owned companies registered in Sweden, Norway and South Korea. The Group's operations are mainly operated through its subsidiaries.

#### **Financial overview**

| Group (SEK<br>thousand)         |                           |                           |                             |                             |                                 |

Consolidated net sales for the second quarter totalled SEK 65.9 million (65.7), and SEK 129.5 million (131.2) during the first six months of the year, which amounts to a decrease of 1.3 per cent compared to the same period last year. This was mainly due to lower volumes of food waste delivered to the facility in Ulsan, South Korea. Total revenues for the second quarter reached SEK 71.7 million (74.6), and SEK 140.3 million (145.1) in the first six months of the year. Costs associated with raw materials and consumables increased 12 per cent compared to the first half of 2017, which was mainly due to a higher level of penalty fees booked in South Korea, increased costs for substrate in Sweden, and increased operating costs at Södertörn. During the first six months of the year, other external costs increased primarily due to increased maintenance costs and legal fees. Personnel costs also increased, mainly due to the addition of personnel in Norway. Consolidated EBITDA for the second quarter was SEK -2.0 million (+12.2), and SEK -0.6 million (+22.7) for the first six months of the year. Operating profit for the second quarter totalled SEK -15.6 million (-0.7), and SEK -28.1 million (-3.0) for the first half of the year.

The Group posted a loss after tax of SEK -21.3 million (-19.5) for the second quarter, of which SEK +4.4 million (-8.8) is attributable to unrealised exchange rate fluctuations. The Group posted a loss after tax of SEK -43.8 million (-23.8) for the first six months of the year, of which SEK +5.2 million (-2.7) is attributable to unrealised exchange rate fluctuations, mainly due to long-term intra-group financing of foreign subsidiaries.

Total assets at 30 June 2018 amounted to SEK 1,205.3 million (1,178.6), equivalent to a year-on-year increase of 2.3 per cent. Finance lease-related borrowing totalled SEK 294.1 million (255.5). Equity was also impacted by net profit/loss during the period and a contribution in the form of a SEK 8.2 million new share issue from non-controlling interests.

At 30 June 2018, the consolidated cash balance was SEK 51.0 million (106.1).

#### Investments

Investments in tangible and intangible assets during the first half of the year totalled SEK 66 million (120), of which SEK 44 million relates to new financial leasing. At 30 June 2018, the Group had commitments to make further investments, mainly in the biogas plant in Skogn, Norway.

At 30 June 2018, the carrying amount of the Group's tangible and intangible assets was SEK 993.5 million (932.9), of which SEK 280.1 million (245.6) pertained to objects leased by the Group through long-term finance lease agreements.

## Significant events during the period

#### Commissioning underway in Skogn, Norway

Commissioning of the liquid biogas plant in Skogn, Norway, started at the end of June 2018. When fully operational, it is estimated that the facility will have a capacity of 12 million Nm<sup>3</sup>, equivalent to approximately 120 GWh.

#### New co-operation agreement

The Group signed a co-operation agreement with Mönsterås Biogas AB to jointly develop an investment project for potential biogas production in Mönsterås municipality. Development work will be conducted in a jointly owned company with the aim of treating 100,000 tonnes of substrate and producing around 110 GWh LBG annually. The Group has established a new company that at the end of the first six months of the year was still wholly owned by the Group. The company is called Mönsterås Biogasproduktion AB.

#### Filling station operational

A filling station at the Group's biogas plant in Södertörn became operational at the beginning of the year. The filling station will mainly sell pure biogas to trucks and refuse vehicles that use the SRV recycling facility in Södertörn. The facility has been part-financed with support from Klimatklivet, an initiative of the Swedish Environmental Protection Agency.

#### Written procedure

During the second quarter, a written request was made to bondholders to waive certain terms and conditions relating to their bond holdings. A clear majority of bondholders who voted in the written procedure voted to approve the request. For further information please see the press release on <u>scandinavianbiogas.com</u>.

#### **Production and sales**

#### **Business area Sweden**

Sales of biogas from operations in Sweden during the first six months of the year amounted to 10.2 million Nm<sup>3</sup> (10.2), equivalent to approximately 102 GWh (102). The price of external organic material, for example glycerol, which is used in some applications with food waste and sewage sludge respectively in biogas production, has remained high. At the beginning of the year, the Södertörn facility was affected by the failure of an interim storage tank. This resulted in lower production volumes and increased costs. Customer biogas deliveries were made as planned, and all commitments were met in full. During the first six months of the year, an average of 152 tonnes (148) of organic waste was processed in Business area Sweden per day.

#### **Business area Korea**

The facility in South Korea received an average of 173 tonnes (187) food waste per day during the first six months of the year. Sales of raw gas during the same period amounted to 4.2 million Nm<sup>3</sup> (4.9), equivalent to approximately 29 GWh (34). A total of 4.9 million Nm<sup>3</sup> (5.5) of raw gas was produced.

#### **Business area Norway**

Commissioning of the liquid biogas facility in Skogn, Norway, started at the end of June. Full production capacity is estimated at 12 million Nm<sup>3</sup>, equivalent to approximately 120 GWh.

## **Ongoing investment projects**

#### Skogn, Norway

In August 2015, construction started on a biogas facility for liquid biogas in Skogn, Norway. Commissioning of the plant began at the end of the second quarter 2018. Due to project delays, the Group has booked the delay penalty as a reduction in investment between December 2017 and the beginning of March 2018. The facility's full production capacity is projected to be 12 million Nm3, equivalent to approximately 120 GWh. Long-term sales agreements for all planned biogas production are in place, and long-term access to substrate has for the most part been secured through an agreement with the main supplier.

# Financing

Day-to-day operations are financed with equity, loans from external creditors, and finance leasing. In Sweden, a majority of production facilities are leased under 25-year lease agreements. At 30 June 2018, non-current interest-bearing liabilities, exclusive of finance leases, totalled SEK 564.5 million (416.1), with the increase mainly due to loans taken for the facility in Skogn. One of the Group's loans from external creditors was refinanced in the second quarter at a lower rate. The Group's cash balances totalled SEK 51.0 million (106.1) at 30 June 2018.

Following the written procedure, the Group has used a proportion of the remaining capital from the bond issue in June 2017 to finance the investment in Norway.

Any need for additional working capital is expected to be financed with, subordinated to the corporate bond, debt or equity. The Group wants to expand and is actively working on new projects. The Group expects financing of future projects will require different types of co-operation and financing, depending on the project's structure and positioning.

As part of the Group's strategic plan, the Board and management have worked on a possible listing of the share on a suitable stock exchange. In parallel with these activities, a variety of strategic and capital-based structural alternatives to create and realise the value of the Group's business opportunities and maximise shareholder value are also being evaluated in cooperation with external advisors.

#### The share

The number of shares was unchanged during the first six months of the year, and on 30 June 2018 the company had 107,098,839 (107,098,839) shares. The quotient value is SEK 0.20 per share, and each share carries one vote. All outstanding shares are ordinary shares and therefore carry the right to equal shares in Scandinavian Biogas Fuels International's assets and profits.

#### Warrants

All outstanding warrants held by employees and the CEO at 31 March 2018, expired on 1 April 2018 without being used, meaning there are no outstanding options.

#### Ownership structure at 30 June 2018, (per cent)

| AC Cleantech Growth Fund 1 Holding AB and related parties | 29.3% |
|---|-------|
| Bengtssons Tidnings AB and related parties                | 28.8% |
| Wipunen varainhallinta Oy                                 | 10.3% |
| Reliquum and related parties                              | 5.6%  |
| Ajanta Oy and related parties                             | 5.5%  |
| Erik Danielsson and family, incl. company                 | 5.2%  |
| John Nurminen Oy and related parties                      | 4.0%  |
| Other   | 11.3% |

## Significant risks and operational uncertainty

#### Disputes

Developments relating to the Group's disputes since the beginning of the year are outlined below. Status is otherwise unchanged. For a more comprehensive description of ongoing disputes, please see the 2017 annual report.

Court hearings concerning the dispute with one of the main suppliers of the facility in Södertörn have ended, and the court's ruling is expected in the third quarter of 2018.

Due to disagreements with Ulsan City relating to operations in Ulsan, South Korea, the Korean subsidiary started legal proceedings in Ulsan's administrative court in 2017 regarding certain service costs that Ulsan City invoiced to the subsidiary. In the summer of 2018, the court ruled that the invoices from Ulsan City for service costs are not classified as an administrative issue, and thus not subject to administrative law. The Group appealed the court's ruling in August 2018 and a ruling from a higher court is expected during the first half of 2019. The total nominal value of the disputed service costs is estimated at around SEK 80 million for the entire contract period, subject to annual food waste volumes, prices and exchange rates. Annual service costs amount to around SEK 5 million, and it is assumed that the result of this dispute will have a mainly positive effect on Group profit, corresponding to a reduction in one-off costs of SEK 40 million and a reduction of approximately SEK 5 million a year going forward.

On 23 August 2018, the court in Ulsan announced their decision regarding the ongoing dispute with Ulsan City concerning the contractual obligation to invest in a gas upgrading facility at the Ulsan site by the end of 2017, see Significant events after the end of the period.

As previously communicated, one of the Group's suppliers to the project in Skogn, Norway, has made compensation claims, mainly for groundwork. The supplier has now increased their demand from NOK 52 million to some NOK 78 million, although no formal demand has yet been made. The Group has, however, previously entered into a settlement agreement with the supplier and continues to be of the opinion that the specified compensation is covered by the settlement.

As profitability is expected to be lower, this will adversely affect the Group's cash flow, which in turn increases liquidity risk. The Group is therefore planning to conduct a new rights issue, as mandated by the Annual General Meeting on 25 June 2018, and has launched a re-organisation process and initiated an action and investment programme with the aim of improving profitability, primarily at the Södertörn facility.

Significant risks and uncertainties are described in the latest annual report, which is available at scandinavianbiogas.com.

## **Related-party transactions**

Loan agreements totalling SEK 14 million were signed with the major shareholders during the second quarter. The loans have a fixed rate of 8 per cent and shall be used in any potential new rights issue. If unused, the loans mature on 11 February 2020. No other transactions with related parties have taken place during the interim period.

## **Parent Company**

#### **Operations**

The Group's operations are primarily conducted in its subsidiaries, while the Parent Company serves as more of a Group administrator.

#### Net sales and financial performance

The Parent Company's total revenues in the second quarter amounted to SEK 0.3 million (0.3), and SEK 0.8 million (0.6) in the first six months of the year. The increase is due to re-invoicing passed on to subsidiaries and corresponding costs included in operating expenses. Profit after tax was SEK -10.5 million (-10.0) in the second quarter, and SEK -13.9 million (-11.7) in the first six months of the year.

#### Liquidity and financial position

Cash balances at 30 June 2018 totalled SEK 0.1 million (24.3). Total assets amounted to SEK 509.9 million (603.1).

No significant events or changes have taken place since publication of the 2017 annual report that have any bearing on the Group's or Parent Company's earnings or financial position other than those addressed in this report.

## Significant events after the end of the period

At the beginning of July 2018, the Swedish government announced plans to facilitate the profitability and competitiveness of existing biogas production with the introduction of a scheme to support production between October 2018 and October 2019. Raw gas producers can apply for support for the portion of their production earmarked for upgrade to vehicle fuelquality, provided that it does not originate from sewage sludge, food-based production of biofuels, or gas extracted from landfill. The support totals SEK 270 million and will be administered by the Swedish Board of Agriculture, which estimates the initiative will amount to between SEK 0.30 and SEK 0.35 per kWh (around SEK 3.00-3.50 per Nm3). For further information, please see Biogasstöd 2018 on the Swedish Board of Agriculture's website: jordbruksverket.se.

In June, political parties in Denmark reached a new energy agreement that will manage the long-term transition to renewable energy. The agreement regulates support provided to biogas production from 2021 to 2040, which is also likely to influence a decision on continued production support in Sweden beyond October 2019.

In July, the Parent Company received an additional SEK 4 million loan from one of its largest shareholders.

The civil court in Ulsan announced their decision on 23 August 2018 regarding the ongoing dispute with Ulsan City concerning the contractual obligation to invest in a gas upgrading facility at the Ulsan site by the end of 2017. The court ruling is unfavourable to the Group and implies that Ulsan City are entitled to an annual fee estimated to approximately SEK 8-9 million, instead of the by the Group expected circa SEK 3 million per year. However, the Group has the opportunity to appeal the decision. The recorded penalty expense for the period January-June 2018 is approximately SEK 3,6 million, which though corresponds to the court's ruling. According to the annual report 2017, the net present value of the total accrual in the consolidated balance sheet as at 31 December 2017 was approximately SEK 25 million, corresponding to a nominal value of approximately SEK 55 million.

The total nominal value of the gas penalty, for the entire contract period, is estimated at approximately SEK 140 million, subject to annual gas sales volumes, prices and exchange rates. The Group is analysing the decision and evaluates various legal and business options. For additional information about, and the background to, the dispute, see Penalty fee in Ulsan on page 32 in the 2017 annual report on www.scandinavianbiogas.com.

The Group plans a rights issue during the second half of 2018.

To improve the Group's profitability, an action and investment programme has been launched, mainly focused on the Södertörn facility, and a decision has been taken to initiate a re-organisation process.

## Outlook

There is a great need for renewable energy that can replace fossil fuels, such as coal, oil, and natural gas, at reasonable prices. According to various studies of renewable alternatives that can be mass-produced, interest in biogas has increased. This in turn drives demand, which is expected to increase further as supply increases. Within sectors such as heavy transport, demand for liquid biogas is expected to increase considerably in the coming years. Market prices for fossil fuels, however, create a degree of uncertainty for the market price of biogas, as well as for growth and new investment in renewables.

The Group's long-term goal is to use Scandinavian Biogas' knowledge and experience to ensure the expansion of biogas supply and use. Deliveries may, apart from our own facilities, also come from third parties, and contribute to Group sales with licencing, operating, and service agreements etc.

The Group's long-term goal is to ensure:

- growth corresponding to a 20 to 30 per cent increase in average annual biogas sales and deliveries.
- initially, achieve total capacity of one TWh. Growth may be based on own production or on contractual knowledge management.
- project profitability corresponding to at least 15% IRR.
- an EBIT margin corresponding to at least 10%.
- a debt/equity ratio corresponding to at least 30%.

In recent years, the Group has sought to increase production in the Stockholm area – work that is ongoing. The combined full technical capacity of all plants in Sweden is estimated at around 30 million Nm3 of fuel-quality biogas, or 300 GWh. Furthermore, over time, production at Södertörn can increase substantially following the award of an environmental permit in 2017. The plant in South Korea is expected to continue to have an annual production capacity of some 65 GWh. In addition, annual production capacity in Norway is estimated to be around 12 million Nm<sup>3</sup> of liquid biogas, or approximately 120 GWh. Under current plans and ongoing projects, the Group's total production capacity is expected to be close to 500 GWh.

The Group's profitability (EBITDA) in 2018 is expected to be lower than last year, due to the delayed commissioning of the facility in Skogn, service disruption at the Södertörn plant, and higher than planned legal expenses.

#### CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME Amounts in SEK thousand

#### NOTES

#### Note 1 General information

Parent Company Scandinavian Biogas Fuels International AB (publ), corporate registration number 556528-4733, operates as a public, limited liability company and is registered in Stockholm, Sweden. The headquarters are located at Holländargatan 21A, SE-111 60, Stockholm, Sweden.

Unless otherwise specified, all amounts are stated in SEK thousand. Figures in brackets pertain to the same period a year earlier.

The interim information presented on pages 1-6 comprises an integrated component of this financial statement.

#### Note 2 Summary of key accounting policies

Scandinavian Biogas Fuels International AB (publ) applies the International Financial Reporting Standards (IFRS) as adopted by the European Union. This interim report has been prepared in accordance with IAS 34, Interim Financial Reporting. The Parent Company's report has been prepared in accordance with Chapter 9 of the Annual Accounts Act and RFR 2, Accounting for Legal Entities. The interim report is to be read alongside the annual report for the financial year ending 31 December 2017.

Accounting principles used in this report are in accordance with the principles applied the previous financial year, with the exception of what is described in relation to IFRS 9 and 15 below.

#### **IFRS 9 Financial instruments**

The Group is applying IFRS 9 for the first time in the 2018 financial year, from 1 January 2018. The Group is applying the new recommendation retroactively and fully. The transition to IFRS 9 does not entail any change in income, financial position or cash flow for the Group, and therefore no reassessment of comparative figures has been conducted.

From 1 January 2018 the Group classifies its assets according to the following categories:

- financial assets that are subsequently booked at fair value (either through other comprehensive income, or through income statements), and
- financial assets reported as accrued acquisition value.

Currently, the Group only has assets in the second category.

This classification is based on the Group's business model for the management of financial assets and contractual terms for assets' cash flows.

#### Impairment

At the end of each reporting period, the Group assesses whether there exists objective evidence that indicates impairment for debt instruments should be reported as accrued acquisition value.

In accordance with IFRS 9 rules, the Group applies a simplified method of impairment testing for accounts receivable that means that expected customer losses should be reported when the underlying receivables are recorded in the consolidated balance sheet. The Group currently holds no receivables other than customer receivables and cash and cash equivalents, which are valued at accrued acquisition value.

#### IFRS 15 Revenues from contracts with customers

The Group is applying IFRS 15 for the first time in the 2018 financial year, from 1 January 2018. The Group is applying this standard going forward. This means that any potential accumulated effect of the transition will be reported in the consolidated balance sheet at 1 January 2018, and comparative figures have not been recalculated. The transition to IFRS 15 does not entail any change in income, financial position or cash flow for the Group, and therefore no reassessment of comparative figures has been conducted.

The Group produces and sells biogas and generates income related to waste management. Sales of biogas are reported as income once their control is transferred to the customer. From that point on, the customer has full control over goods, and the Group has no outstanding commitments. Income from the receipt of waste is reported when waste is received and customer commitments have been met.

No financing component is deemed to be in place when the credit period is typically 30 days, and in no case exceeds one year. A claim is reported when gas has been delivered, or when waste is received, as this is the point when compensation becomes unconditional.

Of the new standards and interpretations that come into force for financial years that start after 1 January 2018, it is primarily IFRS 16 that can be expected to have a significant impact on the Group's financial reporting.

**IFRS 16 "Leases"** will replace IAS 17 "Leases" and entails that virtually all leasing contracts will be reported in the consolidated balance sheet as no distinction is made between operational and financial leasing agreements. According to the new standard, an asset, (the right to use a leased asset), and a financial commitment to pay leasing fees shall be reported. Short-term contracts and contracts of lesser value are excluded. The standard will primarily affect the auditing of the Group's operational leasing agreements. The Group's assessment is that IFRS 16 will mean that a large part of the leasing agreements that are currently reported as operational leasing, e.g.: rent of land and rent of storage tank will be reported as assets and liability from 1 January 2019. This in itself entails lower other external costs, but higher depreciation and financial costs. The standard will also result in an increase in information contained in the annual report. The Group will choose to apply a modified retroactive approach and does not intend to apply the standard in advance.

No other IFRS or IFRIC interpretations that are yet to enter force are expected to have a significant impact on the Group.

## Note 3 Segment reporting

Scandinavian Biogas's operations are divided into three segments based on geographic location. The Group's operations are managed and reported based on the following operating segments: Business area Sweden, Business area Korea, and Business area Norway. In addition, there is also a Service Centre and Research & Development segment. The business areas are geographic organisations, with the head of each business area reporting directly to Group management.

Segment data is based on the same accounting policies as those applied by the Group as a whole and is consolidated (i.e. cleared of intra-group items).

## Note 4 Tangible assets

Investments in tangible assets during the first six months of the year totalled SEK 65.8 million (117.9), of which SEK 44.0 million pertains to new financial leasing.

The Group capitalised borrowing costs on qualifying assets in the form of new facilities in the amount of SEK 5.6 million (3.8) during the interim period.

Tangible assets include leased items held by the Group under finance lease agreements in the following amounts:

|   | 2018-06-30 | 2017-06-30 | 2017-12-31 |
|---|------------|------------|------------|
| Buildings and land                      | 111 907    | 114 150    | 114 515    |
| Plant and machinery                     | 153 970    | 115 295    | 116 357    |
| Equipment, tools, fixtures and fittings | 7 211      | 9 209      | 7 879      |
| Construction work in progress           | 6 974      | 6 974      | 6 974      |
| Carrying amount                         | 280 062    | 245 628    | 245 725    |

## Note 5 Other long-term receivables

| Group                    | 2018-06-30 | 2017-06-30 | 2017-12-31 |
|--------------------------|------------|------------|------------|
| Restricted bank balances | 22 414     | 49 895     | 32 462     |
| Other                    | 3 600      | 1 545      | 3 487      |
| Total                    | 26 014     | 51 440     | 35 949     |
|                          |            |            |            |
| Parent Company           | 2018-06-30 | 2017-06-30 | 2017-12-31 |
| Restricted bank balances | -          | 29 674     | 12 078     |
| Total                    | -          | 29 674     | 12 078     |

Restricted bank balances are comprised of guarantees in subsidiaries for external loans.

#### Note 6 Other current receivables

Other current receivables include SEK 39.0 million (0) related to the accrued delay penalty for the facility in Skogn. The corresponding amount at the end of the previous financial year was SEK 10.6 million.

## Note 7 Borrowing

The carrying amount and fair value of long-term borrowing are as follows:

|                                       | Carrying amount |            |            | <u>Fair value</u> |            |            |
|---------------------------------------|-----------------|------------|------------|-------------------|------------|------------|
|                                       | 2018-06-30      | 2017-06-30 | 2017-12-31 | 2018-06-30        | 2017-06-30 | 2017-12-31 |
| Liabilities to credit institutions    | 303 384         | 186 192    | 231 699    | 303 384           | 186 192    | 231 699    |
| Corporate bonds                       | 226 202         | 224 456    | 225 418    | 232 389           | 225 606    | 231 605    |
| Liabilities related to finance leases | 278 370         | 241 417    | 242 949    | 278 370           | 241 417    | 242 949    |
| Other non-current borrowings          | 34 925          | 5 491      | 18 300     | 34 925            | 5 491      | 18 300     |

The fair value of short-term borrowing corresponds to its carrying amount, as the discounting effect is not of a material nature.

One of the Group's loans from external lenders was refinanced during the second quarter to a lower rate of interest.

The Scandinavian Biogas Fuels AB subsidiary has provided a guarantee for the Parent Company's corporate bond. Other collateral and contingent liabilities above refer primarily to subsidiary loans from credit institutions. See also the 2017 annual report.

## Note 9 Definitions of key ratios

#### **Operating results/EBIT**

Operating results provide an overview of the Group's total earnings generation and are calculated as operating results before financial items and tax.

#### EBITDA

EBITDA is a profitability measure considered by the Group as relevant for investors interested in earnings generation before investment in assets. The Group defines EBITDA, (Earnings Before Interest, Tax, Depreciation and Amortisation), as operating results exclusive of other operating costs and amortisation/depreciation and impairment of tangible and intangible assets.

| EBITDA                                | 1 April - 30<br>June 2018 | 1 April - 30<br>June 2017 | 1 January -<br>30 June 2018 | •      | 1 January - 31<br>December 2017 |

#### Gross profit/loss

Gross profit/loss is a profitable measure that shows the Company's revenues less variable production costs.

| Gross profit/loss               | 1 April - 30<br>June 2018 | -       | •       | 1 January -<br>30 June 2017 | 1 January - 31<br>December 2017 |

#### Adjusted equity/asset ratio

The equity/asset ratio shows the proportion of assets financed with equity. The Group uses an adjusted equity/asset ratio, as this metric is defined in the corporate bond prospectus. The adjusted equity/asset ratio is calculated as the sum of total equity, (including non-controlling interests), and subordinated loans divided by total assets adjusted for the grant from Enova. The grant from Enova for the Norwegian project in Skogn is included in the prospectus as a subordinated loan, but is a grant that does not require repayment. Subordinated loans at the end of the interim period amounted to SEK 34.9 million (5.5), and relate to loans from the largest shareholders to the Parent Company, and loans from minority shareholders in Biokraft Holding AS to the same company.

| ADJUSTED EQUITY/ASSEST<br>RATIO                | 2018-06-30         | 2017-06-30        | 2017-12-31        |

## Note 10 Events after the end of the interim period

At the beginning of July 2018, the Swedish government announced plans to facilitate the profitability and competitiveness of existing biogas production with the introduction of a scheme to support production between October 2018 and October 2019. Raw gas producers can apply for support for the portion of their production earmarked for upgrade to vehicle fuelquality, provided that it does not originate from sewage sludge, food-based production of biofuels, or gas extracted from landfill. The support totals SEK 270 million and will be administered by the Swedish Board of Agriculture, which estimates the initiative will amount to between SEK 0.30 and SEK 0.35 per kWh (around SEK 3.00-3.50 per Nm3). For further information, please see Biogasstöd 2018 on the Swedish Board of Agriculture's website: jordbruksverket.se.

In June, political parties in Denmark reached a new energy agreement that will manage the long-term transition to renewable energy. The agreement regulates support provided to biogas production from 2021 to 2040, which is also likely to influence a decision on continued production support in Sweden beyond October 2019.

In July, the Parent Company received an additional SEK 4 million loan from one of its largest shareholders.

The civil court in Ulsan announced their decision on 23 August 2018 regarding the ongoing dispute with Ulsan City concerning the contractual obligation to invest in a gas upgrading facility at the Ulsan site by the end of 2017. The court ruling is unfavourable to the Group and implies that Ulsan City are entitled to an annual fee estimated to approximately SEK 8-9 million, instead of the by the Group expected circa SEK 3 million per year. However, the Group has the opportunity to appeal the decision. The recorded penalty expense for the period January-June 2018 is approximately SEK 3,6 million, which though corresponds to the court's ruling. According to the annual report 2017, the net present value of the total accrual in the consolidated balance sheet as at 31 December 2017 was approximately SEK 25 million, corresponding to a nominal value of approximately SEK 55 million.

The total nominal value of the gas penalty, for the entire contract period, is estimated at approximately SEK 140 million, subject to annual gas sales volumes, prices and exchange rates. The Group is analysing the decision and evaluates various legal and business options. For additional information about, and the background to, the dispute, see Penalty fee in Ulsan on page 32 in the 2017 annual report on www.scandinavianbiogas.com.

The Group plans a rights issue during the second half of 2018.

To improve the Group's profitability, an action and investment programme has been launched, mainly focused on the Södertörn facility, and a decision has been taken to initiate a re-organisation process.

This interim report has not been audited.

The next interim report will be published and made available on scandinavianbiogas.com on 25 October 2018.
